# who am I?

Nicole Pagliuca was born on 9 December 2003 in Saronno (VA). She attended the Paolo Candiani art high school in Busto Arsizio, approaching artistic-multimedia disciplines in 2017. After graduating from high school, in 2022, she undertook the photography course of studies at the European Institute of Design IED Milan, where she will graduate in 2025. In 2025 she collaborated as an assistant in the fourth and fifth edition of the photography masterclass held by Hélène Binet for the Polytechnic of Milan. She is currently attending a master's degree in Photography at the Brera Academy of Fine Arts in Milan.

For several years Nicole Pagliuca has been carrying out her research in the artistic-experimental field, working mainly with analogue black and white photography. Her work and themes develop progressively, seeking abstraction within everyday life, delving into psychology and the journey-path.
